

AGILE DIGITAL TRANSFORMATION AND ANALYTICS

CAPABILITIES STATEMENT

ABOUT US

DISADVANTAGED VETERAN-OWNED SMALL BUSINESS

A Digital Transformation and Analytics services and technology company with deep expertise in digital strategy, system integration, advanced analytics, automation and simulation modeling. We help organizations better mobilize and fortify their supply chains and operations with end-to-end visibility and AI-Driven insights.

DIFFERENTIATORS

Broad emerging-technology expertise with commercial and defense supply chain know-how.

Public Sector technology partnerships for rapid and scalable development from pilot to production.

PAST PERFORMANCE

PRIME CONTRACTOR DLA SUBSISTENCE IDIQ

Developed Digital Strategy and AI-Powered Analytics Command Center for \$3B Subsistence supply chain

PRIME CONTRACTOR DLA LOGISTICS TECHNOLOGY RESEARCH

DLA AI/ML Roadmap and Contract Quality System

ARMY WEST POINT ATHLETIC ASSOCIATION

Microsoft Dynamics ERP and CRM Implementation, System Integration and Analytics support

AFSOC A4 / DLA AVIATION SBIR PHASE II & III

AI-Powered Digital Supply Chain Twin with contingency planning via simulation and scenario modeling.

CAPABILITIES

SOFTWARE DEVELOPMENT: Full SDLC capabilities to design, develop and maintain solutions powered by automation, AI and simulations technologies.

DIGITAL STRATEGY CONSULTING: Industry and emerging-technology expertise to develop and execute innovation roadmaps.

- Digital Transformation Roadmap
- Business Process Re-engineering
- Analytics Strategy and Rapid Prototyping

DATA SERVICES: Data integration and visual ecosystem modeling to securely synchronize information from end-to-end.

- ETL and Synthetic Data Services
- Data Migration, Integration and Management
- AWS GovCloud, Microservices Architecture

ANALYTICS and SIMULATION SERVICES: Data science and agile development teams for predictive planning and insights.

- Descriptive to Predictive Modeling and Visualization
- Machine Learning, AI, GenAI
- Custom Simulation and Scenario Modeling Platform

EDGE COMPUTING

- DELL Hardware and H2O.ai AI/GenAI Software Partner
- Prototype, Pilot and Production Solution Services
